Idee Proiect - Backlog

done:

As an unauthenticated user, I want to be able to create an account or log in to access all platform features.

As an unauthenticated user, I want to be able to view public avatars to assess whether the platform matches my style.

As an unauthenticated user, I want to be able to create a temporary avatar that is not saved, to test the platform's features.

As a user, I want to be able to create outfits for my avatar by selecting items from the wardrobe, so I can participate in contests.

As a user, I want to be able to post outfits I have created and liked, to share them with other users.

As a user, I want to be able to delete the outfits I have posted to keep my profile up to date.

As a user, I want to be able to participate in contests to test and improve my artistic skills.

As a user, I want to be able to like and comment on outfits posted by other users to express my opinion on their creations.

As a user, I want to have a profile page so that I can edit my account information.

As an administrator, I want to be able to start and stop contests to encourage user interaction.

As an administrator, I want to be able to delete any object on the platform to ensure a safe environment for users, free from any insults or offensive content.

to do:

As an unauthenticated user, I want to be able to view the most popular and most recent outfits to stay updated on the latest trends.

As an unauthenticated user, I want to be able to search for outfits by theme to easily find inspiration.

As a user, I want to be able to save outfits created by other users so that I can reference them for future inspiration.

As an administrator, I want to be able to send warnings to users who violate platform rules to maintain a friendly and safe environment for all users, including children.

As an administrator, I want to be able to update the list of available items so that users always have access to new content. - ?

As an administrator, I want to be able to grant the administrator role to an authenticated user to improve platform management.
